

renweb

ParentsWeb

We are proud to announce the launch of our new **RenWeb School Management Software**. This valuable tool gives you, the busy parent, an opportunity to get more involved in your child's academic progress and future success – all via the Internet!

RenWeb's ParentsWeb is a private and secure website that has been set up for our school to allow you to see complete information specific to your child. You can view your child's grades, attendance, homework and conduct, as well as other useful school information. You can also communicate with teachers and other school staff online whenever necessary. All you need is an Internet-capable computer.

Here's how to access **RenWeb ParentsWeb**:

- Go to Internet Explorer or Firefox and type in the address of our school website--**www.pjpa.org**.
- Click on the RenWeb icon found on the **Students and Families** page.
- Log in as follows:
 1. Click the **First Time Users** tab if you have not logged in to RenWeb before. If you have, skip to Step 5. Our district code is **pjp-la**.
 2. Enter your email address on file with our school.
 3. Click the **Remember My Email?** box if you would like the login screen to automatically populate your email address on subsequent logins.
 4. Click the **New User** button. You will receive an email containing your password within 3 minutes (to the email address you entered in Step 2).
 5. Click the **Parents** tab.
 6. Enter your assigned password.
 7. Click the **Parent Login** button.

You should now be logged in to the School Information home page of ParentsWeb. We strongly recommend that you click the **Tour the New ParentsWeb** button to take a 6-minute video tour.

Note: If you are on a dial-up connection and experience long delays in loading Renweb, or if you encounter technical problems with the default site, please select the **Dial-up** option on the Parents' login page before clicking the **Parent Login** button. This will take you to a dial-up version of ParentsWeb that contains the same information but in a dial-up-friendly environment requiring fewer graphics. Firefox3, a free web browser, seems to work best with RenWeb. You can download it at www.mozilla.com. Please be aware that the dial-up option will be retired within the next few months, leaving only the full-graphic, higher-bandwidth interface.

Accounting information is also available via RenWeb. If you have questions about this information, please contact Mr. Richard Chiasson at (337) 896-6050.

Please email or call me if you have any questions about or problems with your Renweb account.

We look forward to your participation. This tool will be an important part of the open communication with you that we strive to maintain.

Vanessa J. Tuttle
